

POSH WASH SHOWERS LTD
Method Statement

Shower Units (including cross-hired units) to be delivered on site by either a four wheel drive vehicle or loaded on the back of a lorry.

Units to be sited on firm, level ground.

Whilst units are being sited the area should be clear of pedestrians, including other crew working on site.

Units to be unloaded, all jack legs down and the unit levelled.

Gas, water and electric supply connected to the units.

Unit to be inspected for any damage and to ensure that it is in good working order.
